AACR Annual Meeting 2025: Importing Online Itineraries into the Program Guide App

Registered Annual Meeting attendees can log into the online program planner, search and browse presentations, and select results of interest to create a personal itinerary for the meeting. Once you have created an itinerary on the online planner, you can import it into the Annual Meeting App and save it on your mobile device. To import your saved online planner itinerary into the app, proceed as follows:

From the app Home screen, touch the Build/Sync Schedule button.

From the Build/Sync Schedule page, touch the menu icon in the top right corner and select "Login Settings."

On the Login/Settings page, enter your 7-digit Registration ID (found in your confirmation email and on your badge) and your last name into the fields provided.

Check the box to accept Terms of Use and touch the Submit button.

Return to the Build/Sync Schedule page. The sessions from your imported itinerary will display over the default schedule.
